ameliamorgillo and **bhutaful** like this

givejedahand #Gotohell Tiberi-Checchia - and take #hatsonforawareness #hatsonformentalhealth #hatsonforharry with you. I think you're #deluded. #Princeharry underlines exactly the opposite. I was annoyed by your persistent likes of my material when you should know from that that I would regard you as a large part of what is wrong with the field. You rhapsodize and gush when there is no reason for it unless it is your own unaccountable mood which has nothing to do with the reality of so-called mental health and least of all with #CAMH #CAMHFoundation. In liking material that you would hate if you understood it you are either dishonest or stupid - perhaps both. I am blocking you from my material not because you can't access it but because you and your silly ilk frankly made me sick. You can delete my angry remarks, I don't care. You're a #pest and a #pain and BAD for #mentalhealth. #Ciao!
